

La Zita Passa

From Puglia, this piece is translated as "The Bride Passes". While I was living in Italy I had learned this song from Pupi e Fresedde who originally heard a young girl singing this nonsense rhyme in the streets as she was playing. The song talks about a young bride (la zita) who is married off by her family against her wishes and the hardships she must endure. It is played with a tarantella beat.

Vivace ♩ = 120
